How many metres of depth (including camping space) do you require	Metres
---	--------

This year the maximum depth is 9m. Please take into account the size of all the space you require including the stall, camping and vehicles. You will NOT be able to overspill in any direction. There is no room in the new field for any drift and there is no spare space.

If you want to save space we can arrange parking for your vehicle in a separate field. It is likely that stalls with less depth will be allocated space near the entry of the field, however, this cannot be guaranteed.

How many vehicles would you would like parking for, in a separate field
